Cool Thinking

Welcome to the official site of Carbon Challenge. Over the coming weeks and months this site will be updated regularly to bring news from the world of Carbon Challenge and the "Cool Thinking" that drives us in the Race against Global Warming.

Discover more about:

- the Carbon Challenge "Boathouse" - the world's first sustainable energy-driven mobile facility - used for hospitality, training and business education.
- how Carbon Challenge helps businesses to use Cool Thinking to generate new ideas, new values and an optimised carbon footprint. Carbon Challenge Academy
- Carbon Challenge's mission to perform in the world's top sailing events while achieving significant carbon emission reductions and remaining carbon neutral at all times. About us
- Carbon Challenge's preparations to enter the Volvo Ocean Race 2008/09 and the platform our participation creates for businesses involved in carbon reduction. Join the Race.
- the Race against Global Warming and ideas from the world of carbon reduction. Cool Actions

Business users - Carbon Challenge invites you to join our mission and adopt or extend the use of Cool Thinking in your own organisation. Our Join the Race section contains a range of platforms which enable corporations to affiliate with and/or benefit from the Carbon Challenge experience.

Private users - www.carbonchallenge.net is a location for discovering and linking into the Race Against Global Warming, discovering your own impact on climate change and following the fortunes of our carbon neutral sailing team in the world's greatest sailing events.

LOGBOOK: COOL THINKING

Today the Carbon Challenge team has been able to breathe out. After more than 18 months of strategic planning, secretly working and networking, we can launch carbonchallenge.net.
